

Our legacy evolved

Nimbus C9

*A fast year-round commuter
with extra freedom of movement*

The C9 is a purpose-built, rapid commuter vessel, constructed to equally meet the needs of year-round commuters, active day-trippers or those planning longer, staged journeys with overnight stays. The C9 prioritises spaciousness, surfaces and functionality to provide the best possible onboard load capacity and freedom of movement. The result is easily accessible stowage, wide gangways, extra-large sliding doors and passages through which two people can pass in comfort. It's a boat for connoisseurs of contemporary Scandinavian design; those who appreciate well-thought-out solutions and smart

functionality. The spacious cockpit offers splendid natural light, with a large, sliding glass roof hatch and a modern, snug driver's position. The swiveling cockpit chairs provide ample space for four people to dine or space for five people in total. The cockpit passenger sofa converts easily into an extra bed for two children or one adult. The forecabin has room for a double berth with separate head and kitchenette.

Nimbus C9

Commuter series

1 Extended aft platforms for simplified and safe boarding and disembarkment.

2 Can be fitted with outboard or inboard engine. Rigged with Mercury or Volvo Penta.
